**Nasario remembers the Río Puerco**  
is an independent documentary film.

It was broadcast on New Mexico PBS in October 2017 and  
has screened in New Mexico, New York and Spain.

The film was a heartfelt, labor of love,  
made possible entirely by crowdfunding  
and some major individual donors.

We are choosing to distribute the film **independently**.  
Booking screenings, purchasing home use DVDs or  
educational packages for schools/nonprofit -  
- any and all of this helps us  
continue to share this story of land and community  
which in turn, we hope, will inspire more story sharing,  
story listening and coming together as communities.

## THE DOCUMENTARY - NASARIO REMEMBERS THE RÍO PUERCO

Acclaimed New Mexico folklorist Dr. Nasario García lets the landscape speak through him in story, silence and song as he revives memories in the now ghost towns of his youth in the remote Río Puerco valley. He unearths a time before the rains stopped, when the villages flourished with stories of land, river, animals, magic and myth. The film is a deeply felt memoir of coming home to the story that only you can tell.
